

*Interested in a
paid internship
in a field of your choice?*

Intern Shop

InternShop meets students where they are, allowing them to apply for internships either where they live or where they attend a SUNY campus. All students can apply, regardless of the type of credential they are pursuing.

- Exclusive access to NEW internships in every field for the Spring 2016 semester;
- Guaranteed worksite supervision and corporate compensation of at least minimum wage;
- Adequate workspace, oversight, assignments, and a safe work environment;
- Formal documentation of work;
- An interview for full employment following the placement.

How it works

1. Students apply online through suny.edu/internshop.
2. Students answer a few questions about campus, home location, program of study, and special interests; they are also able to include a personal statement defining their academic and career goals. InternShop is not just a repository of opportunities, but a cutting-edge matching tool. Based on student input, InternShop matches students with relevant, meaningful internship opportunities nearby.
3. After applying, students are immediately alerted to next steps. They will receive information about pursuing these paid internships for academic credit. Every time a student is matched to a new opportunity, they are alerted by the tool.

About Applied Learning at SUNY

Applied learning opportunities provide SUNY students with hands-on experiences that teach them new skills and prepare them for careers in their field, including:

- **SUNY Works** – internships, clinical placements, and cooperative education programs (“co-ops”): Approximately 1,740 students are currently enrolled in co-ops across SUNY.
- **SUNY Serves** – service-learning, community service, civic engagement, and volunteerism: More than 30,000 SUNY students are currently engaged in formal service-learning programs for which they earn college credit, while tens of thousands more participate in community service and volunteer locally, nationally, and around the globe.
- **SUNY Discovers** – study abroad, student research, entrepreneurial ventures, and field study: While SUNY research has a proud history of breakthrough discoveries, inventions and startups, our increased focus on applied learning has led to an unprecedented level of collaboration between SUNY students, faculty, and industry experts to enable commercialization of the best ideas and innovations born at our campuses.

About The Business Council of New York State, Inc.

The Business Council of New York State, Inc., is the leading business organization in New York State, representing the interests of large and small firms throughout the state. Its membership consists of thousands of New York State businesses, including some of the largest companies in the state, as well as local chambers of commerce and trade associations. For more information, visit bcnys.org.

About the State University of New York

The State University of New York is the largest comprehensive university system in the United States, educating nearly 460,000 students in more than 7,500 degree and certificate programs on 64 college and university campuses, and online through Open SUNY. SUNY students and faculty across the state make significant contributions to research and discovery, resulting in nearly \$1 billion of externally-sponsored activity each year. There are 3 million SUNY alumni worldwide. To learn more about how SUNY creates opportunity, visit suny.edu.
