

# “NOTHIN’ NEW” XVII

*Performs*

At 6 months of age, Hank Dondero's granddaughter, Grace, was diagnosed with Atypical Teratoid/Rhabdoid Tumor (ATRT). An extremely rare, very difficult to treat pediatric brain tumor. The tumor has been fully resected and there were no other tumors present in her brain or on her spine. Her spinal fluid was negative for cancer cells. We are very hopeful of a positive outcome. Grace has already completed 5 rounds of chemotherapy, 1 stem cell harvest, and 3 stem cell rescues. In December, it was determined that Grace had "No Evidence of Disease". By the first week in January, Grace had facial paralysis that ultimately was determined to be caused by a recurrent tumor. The cancer was back. She started Proton-Beam Therapy on January 13. Grace has endured many setbacks and subsequent corrective surgeries, like a subdural hematoma, shunt revision, and a PICC reinsertion. She is a fighter! Grace has a long road ahead, but we have faith in God that she will survive and thrive. Please plan to attend our concert in support of Grace. Admission is free but donations would be appreciated.

## Dr. Hank Dondero & Prof. Wayne Krush

From 1959 - 1967 Dr. Hank Dondero performed in many of Greenwich Village's coffee houses, most notably at The Bitter End and The Gaslight. He played lead guitar and banjo with the folk group "The Bitter Ends" and toured with them appearing at many colleges in the New York City area. While serving in the U.S. Army, Hank performed in USO shows on military installations and honky-tonk cafes in local towns.

Through his life Prof. Wayne Krush has developed a passion for traditional, bluegrass, blues, classic rock, and folk music. He performed in Bob's Attic in the nineties. He is currently performing in the Lonesome Moonlight String Band playing bluegrass, traditional, and swing music, and developed an educational program titled A Medley of Mandolins.

**Saturday April 9, 2016 7:30 PM**
