

# HELP SAVE THE LIFE OF A LOVED ONE!

## LEARN:

- **The signs of an opiate overdose;**
- **How to reverse an opiate overdose;**
- **About new treatment approaches.**

Every day, at least one Long Islander dies from an opiate overdose. And those are only the ones we know of - the ones directly caused by Heroin or prescription painkillers such as Percoset or Oxycodone.

**About 7 out of 10, died at home.**

If you don't think it can happen to someone you care about, please think again. Overdoses can happen to anyone.

We will give you for FREE, the overdose reversal agent, Naloxone - and we'll show you how and when to use it. We'll also tell you about Nassau's newest and effective treatment approaches - including injectable, extended-release Naltrexone; and integrated care.

**DON'T MISS A CHANCE TO SAVE A LIFE.**

**Thursday September 29, 2016 • 5pm-7pm**

**Farmingdale State College - Ballroom**  
2350 Broadhollow Rd, Farmingdale, NY 11735
